

KARNATAK LAW SOCIETY'S
GOGTE INSTITUTE OF TECHNOLOGY
DEPT. OF MASTER OF COMPUTER APPLICATIONS

Questers'15

Mobilize your World

www.questers.in

Our Vision

Department of MCA shall excel in transforming graduates into Computer Application Experts with high degree of technical creativity and managerial skills.

Our Mission

To train the graduates to become IT professionals having strong fundamental knowledge in the field of computer applications with ethical values to meet increasing global challenges of ever evolving technologies. MCA has been set up with sound fundamentals and foundations. The dedicated services of the department to the community for more than a decade has nurtured numerous IT professionals. Master of Computer Applications was started at KLS Gogte Institute Technology, Belgaum in the year 1999 to meet growing demand of industries for personnel specialized in the fields of computers and its applications. The department has made a respectable recognition among the Institutes offering similar course. A glance through the alumnus indicates that, most of them are either well placed in the reputed firms or in reputed Institutions in India as well as abroad.

Questers'15

Questers is a national level IT fest organised by KLS's Gogte Institute of Technology, Department of MCA. It is a two day National level IT fest for students of BCA, MCA ,MSC and BSC (CS/IT) where students will showcase their talent and skills. We are proud to present the 5th edition of the Tech-Fiesta - "Questers'15, Mobilize your World".

Mobile technology is rapidly changing the face of communication. Today, out of the seven billion people in the world, approximately six billion are cell phone users. The biggest change that is taking shape is that, globally the majority of internet usage will be done via mobile devices and for the most people mobile web will be their primary - if not the only way of experiencing the internet. Through Questers'15 we want to provide students a platform where they can get familiar with the evolution of Mobile and Internet world so that they will be prepared to face the emerging world when they enter into it.

We learn from every step we take, whatever we do today is a preamble for tomorrow. Questers'15 is an expedition to conquer the quest. Come, Seek and Conquer. Be an Inquisitor, break yourself free, Unleash the best in you and show that you belong here.

Topmatch

race towards excellence

RULES

The ultimate fight to test your abilities and perform at the highest level, making tough decisions under extreme pressure, talking your way out of a tough situation, to sell, strategize, forecast and optimize. You will be required to showcase utmost perseverance, knowledge, tenacity to win this battle. If you have it in you to be the best and the last one standing, then come be a part of TOPNOTCH, the flagship event of Questers'15.

- No of participants : 1
- Participant is required to bring his/her laptop and Dongle.
- Participant should possess Managerial, Analytical and Technical skills.
- In case of any dispute, the decision of the judges and Organizing Team will be final and binding.

Churn your brain... let ideas flow... unleash your hidden talent.

Let the clash begin. Invade! Incept! Crusade!

Codebreak
load your code

RULES

Code is a rule for converting a piece of information into another form. You can edit, compile, execute and put your ideas into action. Be as smart as you can, but remember that it is better to be wise than to be smart. A wise person can fit himself in any kind of conditions to complete the given task.

Trigger your mind and reach the target.
Take the problem, give us the solution.

- Number of participants : 1
- Participants should carry their own laptop.
- Languages to be known : C, C++ and Java.

Creativity is a spark to all innovation. It's time to show your skills on the digital canvas. Since it's an era of internet, it takes special skills not just to present your ideas but even to reach out and impress people. And doing it with excellence will make you a techno artist.

- Number of participants : 2
- Participants should carry their own laptop and dongle.
- Required softwares must be brought by the participants.
- Participants can use IDE's like Dreamweaver, Notepad++, Sublime Text etc.
- Participants should get camera. (Can use smart phone).

- Participants must be familiar with following Technologies: HTML 5, CSS 3, JavaScript, PHP or ASP.NET or JSP
- Participants should be familiar with the following softwares: Image editing softwares like Photoshop, CorelDraw or illustrator

Conferro

Knock it down with your talk

RULES

- Number of participants : 2
- Participant should have good communication and presentation skills.
- Every participant should have their own laptop.
- Judges decision will be final.

A paper is bad enough, but presentations are even more nerve-wrecking. You have got the writing down, but how do you turn it into a dynamic, informative, enjoyable presentation. Thunder of words and good ability to convince the crowd is what it takes to be the best.

Do you have what it takes to be the best?

ITionics

to face the quest and stand the test

RULES

- Number of participants : 2
- Questions will be based on IT, Current affairs and the theme of Questers'15.
- Rules will be intimated only at the time of event.

The flags has been unfurled and the bugle sounded. The horses have been mounted & the ammunition loaded. Questers presents "ITionics", the Technical quiz where the smartest Tech brains decode the Quiz Master's every riddle. The stakes are higher than ever before & all your challengers are raring to go, either go for the kill or fall prey.

The challenge has been laid out.
Be Quick, be brave, be right & the glory is all Yours!
